

# Contents

Preface .....	iii
Acronyms .....	iv
Acknowledgements .....	v
Contents .....	vi
Tables .....	viii
Figures .....	viii
1.0 Introduction .....	1
1.1 Assessment Need .....	1
1.2 Objectives and Benefits .....	2
1.3 Assessment Approach .....	2
1.3.1 The Nearshore Conceptual Model .....	2
1.3.2 Nearshore Landscape Ecology .....	3
1.3.3 Geomorphology and the Conceptual Model .....	4
1.3.4 Summary .....	4
2.0 Materials and Methods .....	10
2.1 Study Area .....	10
2.2 Methods .....	10
2.2.1 Data Compilation .....	10
2.2.2 Spatial Scale: Defining the Landscape .....	12
2.2.3 Geomorphic Classification .....	15
2.2.4 Assessment Framework .....	17
2.2.5 Validating Assessment Scores .....	29
3.0 Results and Discussion .....	31
3.1 Bainbridge Island .....	31
3.1.1 Description .....	31
3.1.2 Limiting Factors and Opportunities .....	32
3.2 Management Areas .....	33
3.2.1 Agate Passage Management Area (MA-1) (Reaches 3217 – 3223; 3487 – 3491) .....	33
3.2.2 Port Madison Bay Management Area (MA-2) (Reaches 3193 – 3216) .....	37
3.2.3 Rolling Bay-Point Monroe Management Area (MA-3) (Reaches 3176 – 3192, plus Reach 6002) .....	45
3.2.4 Murden Cove Management Area (MA-4) (Reaches 3156 – 3175) .....	51

3.2.5	Eagle Harbor Management Area (MA-5) (Reaches 3121 – 3155).....	58
3.2.6	Blakely Harbor Management Area (MA-6) (Reaches 3105 – 3120) .....	68
3.2.7	Rich Passage Management Area (MA-7) (Reaches 3540; 3080 – 3104, plus Reaches 6000-6001) .....	74
3.2.8	Point White – Battle Point Management Area (MA-8) (Reaches 3502 – 3539).....	83
3.2.9	Manzanita Bay Management Area (MA-9) (Reaches 3492 – 3501).....	94
3.3	Validating Assessment Scores.....	98
3.4	Summary Conclusions and Recommendations .....	98
4.0	References .....	102
Appendix A	Tables .....	A-1
Appendix B	Figures .....	B-1
Appendix C	Controlling Factors Scoring.....	C-1
Appendix D	Ecological Functions Scoring.....	D-1
Appendix E	Prioritization of Management Options.....	E-1
	Nearshore Management Strategies.....	E-2
	Influence of Disturbance on Management Actions.....	E-3
	Background to Prioritization Process.....	E-4
	Relevance to Bainbridge Island Nearshore .....	E-6
	The Prioritization Method for Bainbridge Island Nearshore.....	E-7
	Analysis of the Most Applicable Management Strategies.....	E-7
	Refining Management Actions.....	E-15
	References .....	E-18
Appendix F	Monitoring Recommendations and Approach .....	F-1
	Background .....	F-2
	Issues to Consider .....	F-2
	Existing Monitoring Programs and Protocols .....	F-4
	Bainbridge Island Monitoring Recommendations .....	F-4
	Controlling Factors.....	F-5
	Habitat Structure.....	F-6
	Ecological Functions .....	F-6
	References .....	F-9

## Tables

Table 1. List of Major Controlling Factor, Habitat Structure, Habitat Process, and Ecological Function Metrics.....	3
Table 2. Conceptual Model Applied to Geomorphic Classes by Each Controlling Factor Metric. ....	5
Table 3. Categories of Data and Data Sources Used in Assessment Approach.....	10
Table 4. Qualitative Ratings and Normalized Controlling Factor Scores.....	22
Table 5. Summary of Controlling Factor Scoring Metrics .....	23
Table 6. Maximum Potential Controlling Factor Score by Geomorphic Class .....	23
Table 7. Summary of Ecological Function Scoring.....	31
Table A-1. Shoreline Modifications and Land Use Information by Management Area.....	A-2
Table A-2. Summary Statistics of Normalized Reach Controlling Factors Scores by Management Area. ....	A-3
Table A-3. Raw Controlling Factors Scores by Management Area and Metric. ....	A-4
Table A-4. Ecological Functional Scores by Management Area and Metric.....	A-5
Table C-1. Controlling Factors Scoring.....	C-2
Table D-1. Ecological Functions Scoring .....	D-2
Table E-1. Capacity, Opportunity, and Realized Functions as Measures of Ecological and Physiological Responses of Juvenile Salmonids to Restored Habitats (Simenstad and Cordell 2000).....	E-6
Table E-2. Controlling factors scores for reaches and management areas, along with their relative qualitative ranking.....	E-11

## Figures

Figure 1. Basis of Conceptual Model (Williams and Thom 2001) .....	3
Figure 2. Bainbridge Island Management Areas.....	13
Figure 3. Bainbridge Island Drift Cells.....	14
Figure B-1. Bainbridge Island Sediment Sources and Wave Exposure Classes.....	B-2
Figure B-2. Bainbridge Island Overhanging Riparian and Saltmarsh Vegetation.....	B-3
Figure B-3. Bainbridge Island Marine Riparian Zone Land Cover Classes .....	B-4
Figure B-4. Bainbridge Island Shellfish Closures, Dredging, Tidal Constrictions, Urban Waterfront, Fish Farms, and Marina Locations.....	B-5
Figure B-5. Bainbridge Island Shoreline Armoring and Armoring Encroachment. ....	B-6
Figure B-6. Bainbridge Island Point Modifications.....	B-7
Figure B-7. Bainbridge Island Eelgrass, Kelp, and Seaweed Distribution. ....	B-8
Figure B-8. Bainbridge Island Forage Fish Spawning Areas and Salmon-Bearing Streams.....	B-9
Figure B-9. Bainbridge Island Clam and Geoduck Distribution.....	B-10
Figure B-10. Average (Normalized) Controlling Factors Scores by Management Area.....	B-11
Figure B-11. Functional Index Scores by Management Area.....	B-11
Figure B-12. Bainbridge Island Reach Scores (Normalized).....	B-12
Figure B-13. Bainbridge Island Average Reach Scores by Management Area. ....	B-13
Figure B-14. Bainbridge Island Qualitative Rating of Reach and Management Areas. ....	B-14
Figure B-15. Average Controlling Factor Metric Scores For All Reaches on Bainbridge Island. ....	B-15
Figure B-16. Average Individual Controlling Factor Metric Scores by Management Area.....	B-16
Figure B-17. Management Areas 1 and 2 Geomorphic Class Distribution .....	B-17
Figure B-18. Management Areas 1 and 2 Sediment Sources and Wave Exposure Classes.....	B-18
Figure B-19. Management Areas 1 and 2 Shoreline Armoring and Armoring Encroachment.....	B-19
Figure B-20. Management Areas 1 and 2 Point Modifications. ....	B-20

Figure B-21. Management Areas 1 and 2 Shellfish Closures, Dredging, Tidal Constrictions, Urban Waterfront, Fish Farms, and Marina Locations. ....	B-21
Figure B-22. Management Areas 1 and 2 Marine Riparian Zone Land Cover Classes. ....	B-22
Figure B-23. Management Areas 1 and 2 Overhanging Riparian and Saltmarsh Vegetation.....	B-23
Figure B-24. Management Areas 1 and 2 Eelgrass, Kelp, and Seaweed Distribution. ....	B-24
Figure B-25. Management Areas 1 and 2 Forage Fish Spawning Areas and Salmon-Bearing Streams. ....	B-25
Figure B-26. Management Areas 1 and 2 Clam and Geoduck Distribution. ....	B-26
Figure B-27. Management Areas 1 and 2 Reach Scores (Normalized). ....	B-27
Figure B-28. Management Area 3 Geomorphic Class Distribution.....	B-28
Figure B-29. Management Area 3 Sediment Sources and Wave Exposure Classes.....	B-29
Figure B-30. Management Area 3 Shoreline Armoring and Armoring Encroachment. ....	B-30
Figure B-31. Management Area 3 Point Modifications. ....	B-31
Figure B-32. Management Area 3 Shellfish Closures, Dredging, Tidal Constrictions, Urban Waterfront, Fish Farms, and Marina Locations. ....	B-32
Figure B-33. Management Area 3 Marine Riparian Zone Land Cover Classes. ....	B-33
Figure B-34. Management Area 3 Overhanging Riparian and Saltmarsh Vegetation.....	B-34
Figure B-35. Management Area 3 Eelgrass, Kelp, and Seaweed Distribution. ....	B-35
Figure B-36. Management Area 3 Forage Fish Spawning Areas and Salmon-Bearing Streams.....	B-36
Figure B-37. Management Area 3 Clam and Geoduck Distribution. ....	B-37
Figure B-38. Management Area 3 Reach Scores (Normalized). ....	B-38
Figure B-39. Management Areas 4 and 5 Geomorphic Class Distribution. ....	B-39
Figure B-40. Management Areas 4 and 5 Sediment Sources and Wave Exposure Classes.....	B-40
Figure B-41. Management Areas 4 and 5 Shoreline Armoring and Armoring Encroachment.....	B-41
Figure B-42. Management Areas 4 and 5 Point Modifications. ....	B-42
Figure B-43. Management Areas 4 and 5 Shellfish Closures, Dredging, Tidal Constrictions, Urban Waterfront, Fish Farms, and Marina Locations. ....	B-43
Figure B-44. Management Areas 4 and 5 Marine Riparian Zone Land Cover Classes. ....	B-44
Figure B-45. Management Areas 4 and 5 Overhanging Riparian and Saltmarsh Vegetation.....	B-45
Figure B-46. Management Areas 4 and 5 Eelgrass, Kelp, and Seaweed Distribution.....	B-46
Figure B-47. Management Areas 4 and 5 Forage Fish Spawning Areas and Salmon-Bearing Streams. ....	B-47
Figure B-48. Management Areas 4 and 5 Clam and Geoduck Distribution. ....	B-48
Figure B-49. Management Areas 4 and 5 Reach Scores (Normalized). ....	B-49
Figure B-50. Management Areas 6 and 7 Geomorphic Class Distribution. ....	B-50
Figure B-51. Management Areas 6 and 7 Sediment Sources and Wave Exposure Classes.....	B-51
Figure B-52. Management Areas 6 and 7 Shoreline Armoring and Armoring Encroachment.....	B-52
Figure B-53. Management Areas 6 and 7 Point Modifications. ....	B-53
Figure B-54. Management Areas 6 and 7 Shellfish Closures, Dredging, Tidal Constrictions, Urban Waterfront, Fish Farms, and Marina Locations. ....	B-54
Figure B-55. Management Areas 6 and 7 Marine Riparian Zone Land Cover Classes. ....	B-55
Figure B-56. Management Areas 6 and 7 Overhanging Riparian and Saltmarsh Vegetation.....	B-56
Figure B-57. Management Areas 6 and 7 Eelgrass, Kelp, and Seaweed Distribution.....	B-57
Figure B-58. Management Areas 6 and 7 Forage Fish Spawning Areas and Salmon-Bearing Streams. ....	B-58
Figure B-59. Management Areas 6 and 7 Clam and Geoduck Distribution. ....	B-59
Figure B-60. Management Areas 6 and 7 Reach Scores (Normalized). ....	B-60
Figure B-61. Management Areas 8 and 9 Geomorphic Class Distribution. ....	B-61
Figure B-62. Management Areas 8 and 9 Sediment Sources and Wave Exposure Classes.....	B-62
Figure B-63. Management Areas 8 and 9 Shoreline Armoring and Armoring Encroachment.....	B-63
Figure B-64. Management Areas 8 and 9 Point Modifications. ....	B-64
Figure B-65. Management Areas 8 and 9 Shellfish Closure, Dredging, Tidal Constrictions, Urban Waterfront, Fish Farms, and Marina Locations. ....	B-65
Figure B-66. Management Areas 8 and 9 Marine Riparian Zone Land Cover Classes. ....	B-66

Figure B-67. Management Areas 8 and 9 Overhanging Riparian and Saltmarsh Vegetation.....	B-67
Figure B-68. Management Areas 8 and 9 Eelgrass, Kelp, and Seaweed Distribution. ....	B-68
Figure B-69. Management Areas 8 and 9 Forage Fish Spawning Areas and Salmon-Bearing Streams. ....	B-69
Figure B-70. Management Areas 8 and 9 Clam and Geoduck Distribution. ....	B-70
Figure B-71. Management Areas 8 and 9 Reach Scores (Normalized). ....	B-71
Figure B-72. Controlling Factors versus Functional Index Scores, All Geomorphic Types. ....	B-72
Figure B-73. Controlling Factors versus Functional Index Scores, High Bluff.....	B-73
Figure B-74. Controlling Factors versus Functional Index Scores, Low Bank. ....	B-73
Figure B-75. Controlling Factors versus Functional Index Scores, Marsh/Lagoon.....	B-74
Figure B-76. Controlling Factors versus Functional Index Scores, Spit/Barrier/Backshore. ....	B-74
Figure E-1. The restoration strategies for nearshore systems relative to disturbance levels on the site and in the landscape (from Shreffler and Thom 1993). ....	E-3
Figure E-2. Matrix of management action strategies most appropriate for a reach based on the degree of disturbance of the management area and the reach (not listed in any particular order). ....	E-8
Figure E-3. Shoreline Management Area average normalized controlling factor disturbance score versus reach normalized controlling factor disturbance score.....	E-8
Figure E-4. Generalized zones of application of management strategies relative to management area and reach disturbance.....	E-10
