City Announces New Council Meeting Viewing Options

BAINBRIDGE ISLAND, Jan. 11, 2011 – The city’s website now provides citizens with the ability to view City Council meetings live via online streaming. The link can be found on the home page at www.bainbridgewa.gov. Meetings may also be viewed after the fact using the website’s calendar function, which is also accessed from the home page.

The public can view taped rebroadcasts of each week’s City Council meeting on cable television via Comcast Channel 12. Bainbridge Island City Council meetings will be shown each week on Fridays at 10 am and Saturdays at 1 am.

Live cable broadcast of City Council meetings is temporarily unavailable due to the city’s recent change in public access service providers. The city and Comcast are working together to restore live broadcast capabilities and expect this option will resume shortly.
