PUBLIC WORKS ENGINEERING DEPARTMENT
MEMORANDUM

TO: Waste Water Treatment Plant Neighbors
FROM: Bob Earl, City Engineer/Deputy Director Engineering
DATE: May 21, 2008
RE: Upcoming Work at the Waste Water Treatment Plant

Tuesday, May 26 marks a new phase of the Waste Water Treatment Plant upgrade project.

We will begin modifications to the treatment process that may produce more local odors than normal for a period of about one week. We expect that this will occur during normal work hours, 7:00 am to 5:00 pm.

We ask your patience while we complete this critical phase of work. If you have questions or comments regarding odor, or other questions about the upgrade project, please contact:
