

Strawberry Plant Shoreline Restoration & Park Improvements

The City and Park District held a design charrette on Saturday 9/27 for the Strawberry Plant property, a future waterfront park located at the south end of Weaver Road in Winslow. Design concepts were developed by five groups of citizens and have been merged into two composite design concepts. Background materials from the charrette and the composite design concepts are accessible on the City and Park District web sites.

Public Comment

Public input on the composite design concepts will be used to inform the preferred design for this future park. Comments are due by 4pm Wednesday 10/22.

Open House

City and Park District project managers will host a drop-in style open house on Thursday 10/16 from 6-8pm at Strawberry Hill Center (7666 High School Rd) to answer any questions and listen to your comments.

Questions and comments should be directed to Peter Namtvedt Best at the City (206-780-3719; pbest@ci.bainbridge-isl.wa.us; 280 Madison Avenue North, Bainbridge Island, WA 98110) or Perry Barrett at the Park District (206-842-2306; perry@biparks.org; PO Box 10010, Bainbridge Island, WA 98110).
