

City of Bainbridge Island
PLANNING & COMMUNITY DEVELOPMENT

MEMORANDUM

TO: City Council
FROM: Peter Namtvedt Best, Associate Planner
DATE: Thursday, March 06, 2008
RE: Agenda Bill Addendum – Contractor Pollution Liability Insurance

The purpose of this memo is to inform the Council that City staff is working with Anchor Environmental, the selected consultant for the Shoreline Restoration Projects Consultant Services Contract, and the City's insurance broker to ensure that adequate contractor pollution liability coverage is provided for the shoreline restoration projects on the Pritchard Park property. City staff is also evaluating if there are advantages to acquiring a broader insurance policy that would cover not only the restoration projects, but also park development over the coming years.

Contractor pollution liability coverage is required above and beyond the City's current pollution liability coverage for construction activity on Pritchard Park.

The language in paragraph D of Attachment B in the attached agreement is subject to the discussions above, but reflects the expectations the City has that contractor pollution liability coverage must be provided.

Staff is requesting Council approval and authorization the Mayor to execute an agreement with language substantially similar with the attached agreement.
