

## **Elliott Bay Trustee Council Wyckoff/Eagle Harbor Restoration Resolution 2009-10**

This resolution by the Elliott Bay Trustee Council (Trustee Council) adopts the *Supplemental Environmental Assessment for the Strawberry Plant Park Shoreline Restoration Project*, which supplements the *Restoration Plan/Environmental Assessment for the Wyckoff/Eagle Harbor Site, Bainbridge Island, Washington* by providing a detailed impact analysis of that project and identifies it as a preferred project for inclusion in the restoration effort on Bainbridge Island.

Adopted: September 23, 2009

Restoration Plan and Environmental Assessment for Wyckoff/Eagle Harbor Site, Bainbridge Island, Washington

Attachment: Final Supplemental Environmental Assessment for the Strawberry Plant Park Shoreline Restoration Project

The Trustee Council consists of the National Oceanic and Atmospheric Administration (NOAA) of the U.S. Department of Commerce; the U.S. Department of the Interior, represented by the U.S. Fish and Wildlife Service; the Muckleshoot Indian Tribe; the Suquamish Indian Tribe; and the Washington Departments of Ecology (as lead state Trustee) and Fish and Wildlife (as state co-Trustee). The Trustee Council is operating under the *Memorandum of Agreement for Elliott Bay, the Duwamish River and Eagle Harbor (effective date 1/19/06)*. In this MOA, the Trustee Council agreed that proceeds from the settlement in *United States, the Suquamish Tribe and the Muckleshoot Indian Tribe v. Pacific Sound Resources et al., W.D. Wash. C94-697 (entered 8/29/94)* shall: 1.) be used for the restoration of natural resources injured as a result of releases of hazardous substances at the former Wyckoff and Pacific Sound Resources facilities in Eagle Harbor and West Seattle; and 2.) be apportioned between restoration actions in and around Eagle Harbor and in the Elliott Bay / Duwamish Area as determined by the Trustee Council.

The Trustee Council evaluated the types of natural resource injuries and losses of service that are likely to have resulted from releases of hazardous substances into Eagle Harbor and considered how best to restore those injured natural resources. The Trustee Council developed the *Restoration Plan and Environmental Assessment for Wyckoff/Eagle Harbor, Bainbridge Island, Washington* which presented the types of restoration projects that would address injuries resulting from releases of hazardous substances from the Wyckoff Facility into Eagle Harbor. It identified the Strawberry Plant Park Shoreline Restoration Project as one potential restoration project under this plan and indicated that there would be a supplemental environmental assessment for this project that would present a specific analysis of potential impacts from the project, should the Trustee Council decide to fund this project.

Resolution 2009-04 authorized the release of the *Public Review Draft Supplemental Environmental Assessment for the Strawberry Plant Park Shoreline Restoration Project* for a 15-day public review and comment period that ended on June 21, 2009. The Trustees carefully considered all comments received on that public review draft Supplemental Environmental Assessment. These comments are addressed in the final *Supplemental Environmental Assessment for the Strawberry Plant Park Shoreline Restoration Project* (attached). The final Supplemental Environmental Assessment provides an impact analysis and identifies it as a preferred project for inclusion in the restoration effort for restoring injuries to natural resources and services injured by releases from the Wyckoff Facility in Eagle Harbor.

Now, therefore, it is resolved that:

1. The Trustee Council adopts the *Supplemental Environmental Assessment for the Strawberry Plant Park Shoreline Restoration Project* for use in restoring natural resources and services injured by the release of hazardous substances from the Wyckoff Facility in Eagle Harbor.

By their signatures below, representatives of the Elliott Bay Trustee Council hereby certify that this Resolution, 2009-10, was adopted in compliance with decision-making procedures of the Trustee Council.
