

## Figures

Figure 1 – Special Planning Areas: Shows locations and boundaries of Winslow Master Plan Area, Mixed Use Town Center/High School Road, and the Neighborhood Service Centers.

Figure 2 – Traffic Analysis Zones: Shows locations, boundaries, and identification numbers of the traffic analysis zones.

Figure 3 – Population Distribution by Traffic Analysis Zone (TAZ): Compares the differences in population distribution associated with each scenario within each TAZ.

Figure 4 – Land Use Map Current Conditions: Identifies USGS ground water model land use classification of the island associated with the *Base Case-Current Conditions* scenario.

Figure 5 – Land Use Map Expected Impact (Year 2035): Identifies USGS ground water model land use classification of the island by the year 2035 associated with the *Expected Impact* scenario.

Figure 6 – Land Use Map Highest Potential Impact (Year 2035): Identifies USGS ground water model land use classification of the island by the year 2035 associated with the *Highest Potential Impact* scenario.

Figure 7 – Land Use Map Least Potential Impact (Year 2035): Identifies USGS ground water model land use classification of the island by the year 2035 associated with the *Least Potential Impact* scenario.
